The interior of the building has been entirely taken out, and rebuilt expressly to suit the business of the present occupant.

Mr Ryan will keep the Manhattan House for the accommodation of Clubs and Parties. The best Wines and Liquors will be furnished, together, having a capital collection from the best stocks in Boston, a large portion of them being of the celebrated stocks long in the cellar of Mr. Gallagher, late of the Exchange Coffee House. Rooms will be furnished for References and Courts Martial. Transient and permanent boarders will be accommodated in the best style known in the country; and elegant apartments will be let, with or without board.

The Table d'Hoté will be supplied with every delicacy of the various seasons. Mr. Ryan is confident that in this department, his own experience, added to the skill of the persons employed as *cuisiniers*, will enable him to please the most fastidious epicures, both in respect to quality and style.

Those friends who have known the character of Mr. Ryan's House in Boston, he is assured, will find his accommodations better, his means more ample, and his digence quite as untiring; and from such strangers in this city, as love excellence in the various departments of his profession, he would beg the favor of an early call, with the full hope of giving satisfaction.

House was opened on the 15th June, 1837. epft je17

BOSTON MORNING POST.

THURSDAY, OCTOBER 19, 1837.

Elections.—Nothing further from Pennsylvania. We seldom ever look at the pretended return which the *Atlas* publishes of elections; they are so grossly incorrect, generally—but it seems that our neighbor of the Advocate has amused himself in this way; he says—

"We have seldom enjoyed a richer treat of hearty laughter than the perusal of yesterday's *Atlas* afforded us. Its Pennsylvania election returns were 'too killing.' They beat Falstaff all to nothing, and reminded us strongly of the school-boy's expedient of *forcing* a sum that would not otherwise add up as he wished it to do."

That paper makes the *whig* net gain over the electoral vote of last fall of 4735, and at one blow demolished the whole majority for Van Buren electors!

The Journal of Commerce of Monday evening made a Van Buren net gain of 304, even with the errors it persisted in making against the democratic side.

This astounding discrepancy, amounting in all to five thousand and thirty-nine votes, induced us to examine the details of the *Atlas* gain, and we found Lehigh set down a *whig* majority instead of a democratic; Montgomery county, eighty-one instead of eight hundred democratic majority; Huntingdon, 300 instead of 150 *whig*; Washington, 150 *whig* instead of 150 to 200 democratic majority; York, 400 instead of 6 or 700; and to crown all, Berks, 1200 instead of 2153 democratic majority!

This may truly be called a patient mode of making a net gain in paper. Cocker was a fool to such an adept at figures. No wonder the administration is utterly demolished on paper, every day after this exhibition."

Ohio.—The returns so far, give 2 democratic and 6 federal senators as chosen—15 democratic and 21 federal representatives—2 federal gain in the Senate, and 7 in the House.

Some of the *whig* pimps at Washington have reported that Mr Calhoun has recently exchanged some ordinary civilities with Mr Benton, and some of the *whig* editors are dilating upon the affair as if it were as momentous as the "awful disclosures" of Maria Monk. Really, we should not have held it in any wise improper, had Mr Benton shaken hands and passed the time of day with Mr Calhoun, when those gentlemen differed most widely in sentiment. Why should a difference of opinion, here, in a land of freedom, tend to *univilize* public men in their intercourse with each other? Yet, one would infer from the tone of many of the *whig* organs, that there was no other way proper for political opponents to conduct toward each other, than to snarl and snap like *cro*-*dogs* whenever they might come together.

The Albany Argus, one of the strongest, most steadfast, and consistent journals in the advocacy of democratic principles, is decidedly in favor of the passage of the Sub-Treasury Bill, and believes that the results of the ultimate passage of such a law would redound to the best interests of the country. The principal difficulty which, in the opinion of the Argus, the bill does not provide for, is the ultimate accumulation of money, possibly coin, in the government depositories—and this difficulty, the Argus supposes, may be obviated by adopting Mr Wright's plan of authorizing the investment of any surplus beyond the uses of the mint, the appropriations, and say five millions of dollars, in the stocks issued by the state governments.

The following important statement of the condition of the New York Banks, is copied from the Journal of Commerce of Tuesday:

City Banks.—The loans and discounts of 21 (out of 23 City Banks in operation,) have decreased since the 1st of January, \$5,941,859; and since the 1st of September, \$1,584,670.

Their specie has increased during the past month, \$183,678.

Their circulation, though it has increased \$48,989 during the month of September, is \$3,280,357 less than it was on the 1st of January.

Their debt to the U. S. for deposits is reduced from \$7,176,031, to the trifling sum of \$431,290; having been diminished \$155,357 in the month of September.

The amount of individual deposits in their keeping, is greater by \$1,494,023 than it was on the 1st of September, and **greater by \$874,322 than on the 1st of January.**

CITY AND STATE.

The loans and discounts of 95 Banks, comprising all now in operation in the State except the Manhattan, and Delaware and Hudson, have diminished since the 1st of January last, \$8,881,663, and during the month of September, \$756,633.

Their specie has increased within the same month, \$185,467.

Their circulation has increased \$1,398,847 during September, although it is less by \$7,843,587 than it was on the 1st January.

Their individual deposits have increased \$1,644,829 within the month, and are within \$74,787 of what they were on the 1st of January.

Treasury Notes.—The following advertisement has been published in the *Globe*:

TREASURY DEPARTMENT,
13th October, 1837.

Congress has, by an act approved on the 12th instant, authorised the issue of Treasury notes to the amount of ten millions of dollars, in denominations not less than \$50 each, receivable in all payments to the United States, and bearing interest at a rate not exceeding six per cent. per annum. The undersigned, for the purpose of effecting payments to such of the public creditors as may not choose to receive said notes, invites offers for the exchange or loan of them for the legal currency of the United States.

The proposals will state the place where the money will be deposited, and the lowest rate of interest to be borne by notes when taken at par.

Those who receive no reply will consider it as sufficient evidence that their offers are not accepted.

LEVI WOODBURY,
Secretary of the Treasury.

The Dover Gazette pays the following just tribute to the character of Mr WOODBURY:

"There are but few, if any, men in this Country, who have been so much in public life, ever sustained a higher reputation than the present **SECRETARY OF THE TREASURY**; and none can boast of a better moral character. He has been assailed on the floors of Congress by talented and bitter enemies, by those who envy him his exalted fame, but his reputation remains unmarred."

We understand that George Bancroft, Esq., of Springfield, and Dr. L. Wright, of Westfield, were nominated as candidates for senators for Hampden county, at the democratic county convention on Monday last.

The Pensacola Gazette says, the avowal of the Philadelphia banks that they have as much specie in their vaults now as ever they had, is as if, when the earth is thirsting for rain, its inhabitants should congratulate themselves on the fact, that the grateful fluid is still retained by the clouds.

Jail Burned.—The Hanover county, Va. jail was consumed by fire on the 7th inst. It was set on fire by the prisoners in an unsuccessful attempt to escape.

The deaths in Central America by the cholera, amount to one fifteenth of the population.

Durant's *Exposure of the Magnetists* is a capital book—Weeks, Jordan & Co., are selling them at a great rate.

Music.—It is well known there is a society in Boston, under the name of "The Billings and Holden Society," who occasionally afford pleasure for the lovers of old fashioned harmony, by their public exhibitions. Among the pieces performed, is the good old tune called "Complaint," composed by Parmenter, the father of the present Member of Congress from Middlesex. My object in naming this circumstance, is, that the fact may be known to the younger members of the society, and also, to tell the manager in which the tune first appeared in type. The author of that tune was a blacksmith at the South, and as was the custom in those days, a singing party met at his house one evening, when, in a very modest manner, Mr Parmenter brought out on a strip of paper this tune. It was sung several times with great approbation, when one of the company asked leave to take it and "prick off" (to use a technical phrase) a few copies of the piece. Mr P. rather reluctantly consented, for he was a modest man, and the first that was subsequently known of it, it appeared with the author's name affixed to it, in the very next musical work which was published. Mr P. felt exceeding regret at the circumstance, and although the author of other pieces, never suffered another to appear in print.

CROCHET.

Some considerable excitement has been occasioned at New York, among the friends and relatives of Tiberius G. French, who died at a Thomsonian Infirmary. The deceased was interred on Wednesday evening. On Sunday forenoon the body was disinterred, by order of the Coroner, and a *post mortem* examination took place. It is said that the body was found to be in a state of decomposition far more advanced than usual—so much so as to cause the surprise of all present. The hearing of the evidence before the jury occupied three hours—and the following is their verdict:—

"It is the opinion of this jury, that the death of the deceased was occasioned by a general congestion of the internal organs, and a complete prostration of his natural functions and his nervous system, produced by the administration of deleterious and improper medicines, and other improper treatment, while in the infirmary and under the medical charge of Richard K. Frost."

The keeper of the Infirmary has been arrested.

C—We regret that the proprietors of the New York Times have been compelled to discontinue the publication of that Journal, in consequence of the great falling off in their advertising patronage. The Times has been an arduous laborer in the cause of democracy, and although we have lately differed widely from it in opinion on some important questions, we anticipated that their speedy adjustment would again unite the whole party in an unbroken phalanx. Dr Holland, the principal editor of the Times, is a gentleman in the true sense of the word—accomplished, honorable, courteous; and we hope that his eminent qualifications for the station from which he has just retired, will be soon again called into exercise by his return to the corps editorial.

C—On the First Page, this morning, will be found lots of things—a delicate piece of Poetry—a Criticism on *Forrest's Othello*, by a correspondent—an interesting article on the subject of Musical Instruction in our public schools—a statement by Capt. Adams, and an article in reference to the Army. To-morrow we shall endeavor to publish "B's" and "Fair Play's" communications, and the proceedings of the democratic meeting in Ward 12—the meetings for the election of Ward Committees were generally, we are happy to learn, fully attended, and spiritedly conducted.

We are informed by Dr David S. Rowland, of this city, that the distinguished **LOUIS OFFON GOELICKER**, M. D., of Germany, (inventor of the *Matchless Sana-tive*,) intends visiting the United States at his earliest convenience, with the view of establishing a MEDICAL COLLEGE, where his peculiar doctrines will be taught, which are wholly at variance with the doctrines inculcated at the medical institutions of this country. X. Y.

C—The *Banner of Freedom* is the title of a new paper in Baltimore. The following is extracted from its opening address:—

"In the establishment of papers devoted to the interests of native Americans; and in the constitution of associations for the openly expressed object of treating adopted citizens as *enemies* to the Union, a disposition is certainly evinced which requires some check; and in order to afford that check the *Banner of Freedom* has been established."

A company of fantasticks, called the *Earthquake Volunteers*, recently turned out in Cincinnati. Their ordinance consisted of the chimney of a steamboat, mounted and drawn by two horses. The parade was a most ridiculous affair, throughout.

C—Jim Crow played here one week, and received as much for his portion of the profits as the great Cook did when he was here, for the same period, and as much within less than a hundred dollars as Kean did for his first week in Boston!

C—The U. S. Ship *Independence* left Cronstadt on the 14th Aug. By order of the Russian Emperor a boat from every ship in the port was put in requisition to tow her into the offing. The line of boats extended nearly half a mile in length.

C—Some of the towns near Canton have been flooded and many lives lost. A pestilence is raging which sweeps off great numbers. The first crop of Canton raw silk has been injured by the cold wet weather.

C—A convict, named Clark, who was about to be removed from the Albany jail to the State prison, escaped by putting on the garments of his wife, who had been admitted to his cell.

C—The Roger Williams' Baptist Church and Society in Providence, have invited the Rev. Lorenzo D. Johnson of this city, to become their pastor, and he has accepted of the invitation.

The New York Daily Budget, in speaking of the acting of Booth and Vandenhoff, pronounces the first the perfection of genius and the latter the perfection of art.

The coronation of the Queen of England will take place in May. Many foreign Princes, it is said, will witness the ceremony.

C—Definition.—The Philadelphia Gazette defines a balloon as "a silk bag, with gas in its belly, and an ass at its tail."

A New Orleans paper says, "men and things brighten—people begin to move and prepare for winter and business."

The New York Printers intend to make a general turn out at Woodworth's benefit.

"Smith," who dates his letter at New York, is a queer dog, but he don't know how to spell "Ominous."

C—Turn About.—*, the comedian, and an inveterate wag, strolling through the streets of A—, observed on a sign over the door of a shop, "Turning done here." He stopped in, and inquired for the master of the premises. "I am he, sir,"—known the first person he saw. "Certainly, sir, I am in ivory, brass, wood, iron—in short, in every thing." "Good oblige me by turning something for me while I wait." "What is it, sir?" "Turn me a somerset."

C—The Peascod Gazette says, the avowal of the Philadelphia banks that they have as much specie in their vaults now as ever they had, is as if, when the earth is thirsting for rain, its inhabitants should congratulate themselves on the fact, that the grateful fluid is still retained by the clouds.

U. S. STATES CIRCUIT COURT.

The Grand Jury returned two indictments against **Abiathar White**, the Dighton Justice, for forging Pension Papers. When he was bound over for trial, by Judge Davis, it is said that he asked his Counsel, one of the most eminent in the Profession, what he thought of his case; and the learned gentleman is reported to have made the following soothing reply:—"There aint much chance for you, you stupid old fool!" In consequence of this remark, probably, White was not forthcoming to plead to the Indictments, and his bonds of twenty-four hundred dollars were declared forfeited.

Four sailors were speedily convicted of a revolt on board of the whale ship *Clifford Wayne*, at sea. Their names are Lyman, Chapin, John Downey, John Cavett, and William Howden. Eight of their confederates were taken into New York, and convicted of the same offence. The voyage was entirely broken up by the mutiny. Before passing sentence, Judge Story addressed them at some length, upon the folly and unfeulness of their conduct. He then sentenced them to pay a fine of \$50, and suffer six months imprisonment in the Common Jail, each.

Several resolutions, petitions, &c. were laid on the table.

The usual committee was appointed to join a committee on the part of the Senate, to wait on the President and inform him that the two Houses were ready to adjourn.—The committee having performed this duty, the President returned for answer, that he had no further communications to make, and then

On motion of Mr Grennell, at 10 o'clock, the House adjourned.

C—There was a full house to see Mr Forrest in *Virginia*, last night, and the audience appeared to be highly pleased with his personation of the patriotic Roman.

Mrs Barrett played *Virginia* with great delicacy and propriety, and was warmly applauded throughout the performance.

C—At the *National*, to night, they have a very good bill. The *Farmer's Son* is very popular.
